

SEQUENCING IMPRINTS AND WHAT TO DO ABOUT THEM

BARCELONA PROVENCE, SPAIN

with Ray Castellino, DC, RPE, RCST and Tara Blasco, Ph.D., RCST.

3-day workshop - March 20 to 22, 2020

Open to the public (*Will count as an introductory workshop for those applying for the next Castellino Foundation Training starting in Spain in 2021*)

5-day extended workshop - March 20 to 24, 2020

For graduates and near graduates of the Castellino Foundation Training

Have you ever been in the middle of a project and lost your motivation to finish it? Or have you had an assignment at school and procrastinated until the last minute to rush through the task to get it turned in on time? Or, are you challenged to get started at the beginning of an event or a project? Or, are you chronically early or late? Or, have you and your significant other disoriented or were triggered emotionally at the same time in ways that ended in an argument? These are just a few examples of sequencing imprints, which affect every one of us every day of our lives.

In this workshop, Dr. Castellino and Dr. Blasco will guide us through a series of exercises that will inform us not just about how sequencing imprints affect us, they will demonstrate how to effectively work with them so that we can have more viable choices in our lives rather than to repeat the same patterns over and over again.

This workshop will include:

- Definitions of blueprint energies, imprints and sequencing imprints.
- How to identify Sequencing Imprints.
- How Birth influences Sequencing Imprints.
- An introduction to the Somatic Blueprint as the primary resource for integrating energy that is locked up in adverse pre and peri-natal imprints.
- How to reference Somatic Blueprint energies to integrate energy that is constricted in imprints.
- Session video that shows sequencing imprints.
- How sequencing imprints affects interpersonal relationship dynamics.
- How to establish co-regulated states that open the social nervous system and social energetic fields.

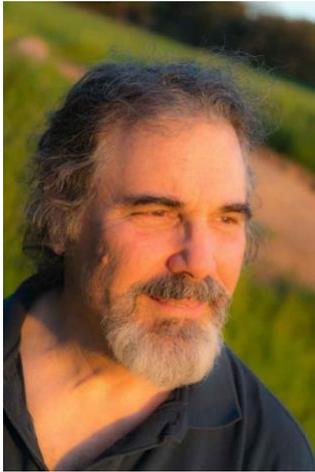

This workshop is organized in two parts:

- 3-day workshop open to the public on March 20 to 22. Designed for professionals and non-professionals alike, who are wanting to know more about how pre and peri-natal experiences profoundly influence how we feel about ourselves, how we perceive others and how we behave. *It will count as an introductory workshop for those applying for the next Castellino Foundation Training starting in 2021.*
- One-and-a-half-day advanced workshop on March 23 and 24 (midday) open only to graduates and near graduates of the Castellino Foundation training. This workshop will be offered by Ray Castellino to train students in how to facilitate sequencing workshops in their own communities.

Price and Registration:

- 3-day workshop: 395 euros
- 3-day workshop + advance workshop: 495 euros
- Deposit to hold your space: 150 euros (will be deducted from the total price)
